On the basis of the feedback performa filled by the parents on PTM dated 17.2.2018, the observations have been classified in two ~~case~~ categories as per following :

A. Feedback      B. Suggestions For Improvement.

Feedback

1. There was perfect agreement amongst the parents that college regularly inform them about the performance / attendance of their wards.
2. All the parents endorsed that college conduct programs for the enhancement of Personality development of their wards.
3. In case of point no. three to five, the parents have expressed their responses on a four point scale (Excellent, Very Good, Good and Satisfactory) The quantified data indicate that average score on the eight factors out of total nine falls 3 and above, that means rating is "very good". The only factor where rating comes below 3 is of transport facility. The institute needs to look into the ways and means to improve the transportation.
