

SAT JINDA KALYANA COLLEGE, KALANAUR (ROHTAK)

Action Taken Report (Feedback-Curricular Aspect)

Session: 2019-2020

Based on feedback on the curricular aspect collected from Students, Teachers, Employer and Alumni, the following actions have been taken:

S. N.	Observations/Suggestions	Action Taken
1	The mode of delivery of syllabi was appreciated by the respondents. However, it may further be enriched by increasing ICT facilities and the latest teaching-learning techniques.	The college has smart classrooms and wi-fi access is available in all classrooms. Teachers are already using ICT tools in the teaching-learning process. The college intends to improve its ICT facilities in the future.
2	Activities for curriculum enrichment should be organized.	All the faculty members were asked to organize more co-curricular activities.
3	The practical aspect of the curriculum should be improved.	Ours is an affiliated college and the curriculum/syllabus is developed by the parent university i.e., M. D. University, Rohtak. These suggestions were communicated to the parent university for consideration. Further, faculty members who attend the meetings of the Board of Studies in the parent university put forward such suggestions. The college on its own has been organizing/conducting skill development programs and Add-on courses to enhance students' skills.
4	The focus of studies should be on the development of critical thinking and not on rote learning.	
5	Job-oriented & skill-oriented courses should be included in the curriculum.	
6	College teachers should be given more opportunities to be a part of the university's Board of Studies via a transparent rotation policy.	
7	The curriculum should be framed keeping in view the overall development of students.	
8	There should be composition periods in the subject of Hindi.
